IDN ccPDP WG2

- 1 vote <u>per territory</u> or <u>per member</u> -

ccNSO Members Meeting

June 21, 2011

ccNSO IDN PDP Working Group 2

- Current Bylaws and ccNSO internal rules does not consider IDN ccTLD's
- How to accommodate IDN ccTLD's in the ccNSO
- Main Topics
  - Membership definition
  - Roles of members
    - Eligibility and selection of councilors to the ccNSO Council
    - Initiation of PDP
    - **Voting (Policy development process, selection of councilors, ICANN Board member)**
  - Quorum for voting

Topic : Voting

- very important issue that will influence the basis of ccNSO
  - WG2 is under discussion, having no preference by now
  - your input is necessary and very important

- Solution space
  - one vote per territory (=listed in ISO 3166)
  - one vote per member

- situations necessary to be considered
  - one organization acts as registries of multiple ASCII cc's
  - one organization acts as registries of an ASCII plus IDN ccTLD(s) within Territory
  - IDN ccTLD(s) is(are) operated by different organization(s) from ASCII's
  - IDN ccTLD(s) in a territory does not correspond to the whole territory
  - ...
